DETAILED ACTION

Claim Cancellations

- The cancellation of claims 1-10, 12, 13, 15, and 17 has been made of record.

Continued Examination Under 37 CFR 1.114

- A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12-5-03 has been entered.

Priority

- Receipt is acknowledged of domestic priority under 35 U.S.C. 120.
-

Drawings

- Applicant's remarks indicated that drawing sheet 7/9 has been changed, but the record is not clear how sheet 7/9 is different from the sheet submitted June 30, 2003 that was previously approved by the examiner.
- Appropriate response to the above is required.

Claim Rejections - 35 USC § 102

- The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2833

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- Claim(s) 27 is/are rejected under 35 U.S.C. 102(b) as being anticipated by Berry et al. (5311302).

-- In reference to Claim(s) 27, Berry shows

a housing 26 (cover sheet) and (figure 2);

at least one networking port 35 (figure 2) disposed in the housing 26 adapted to couple the portable electronic device to the network for providing network connectivity of the portable electronic device, and

a mechanism 82 slidably connecting the housing to a structure of the seat 84;

wherein the housing 26 is positionable on the mechanism 82 between one of a stowed position (83 down) having the housing located at least partially beneath the seat 84, and a deployed position (83 up) having the housing 26 located at least partially projecting from the seat, such that the port 35 is accessible by the user.

Allowable Subject Matter

- Claim(s) 11, 14, 16, 18-26 are allowed.
- The following is a statement of reasons for the indication of allowable subject matter: The prior art does not show the housing being at least partially under the front beam of the seat in either the stowed or deployed position in combination with all the other elements of the claim and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Art Unit: 2833

If the application becomes allowable, any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowable Subject Matter".
